

## Reflection: Final Lesson plan draft

EING 3515

Pedro E. Hernandez

When creating this final version for the lesson plan, I had to take into consideration my previous work and how that could possibly translate to the information I required. Finding the correct way to properly work was very important from the onset. This lesson plan contains a short worksheet. The worksheet serves the purpose of easing the student in and also gathering more information that can be used to better enrich the class. The materials and methods should better develop interpersonal skills.
